

Understanding Domestic & Family Violence

Course Overview

This online module 'Understanding Domestic & Family Violence' is an information resource that will help all health professionals raise awareness and understanding of domestic and family violence (DFV), provide information on how to recognise DFV and how to respond to a disclosure of DFV sensitively and in a way that supports safety.

At the end of this module you will:

- have an understanding of domestic and family violence, and
- be able to identify appropriate and safe responses to disclosure of domestic and family violence.

This course is designed for midwives and other health professionals who provide maternity care to women in Australia.
